INTRODUCTION

About this report

> This report shows how the internet at Demo Library (sample data) was used from 13 October to 11 November 2026: what people used it for, which services they relied on and when, and how the web filter kept them safe. Figures come from the filter that handles every website lookup on your network. No personal information is collected: the filter does not know who used a computer or phone.

Contents

Summary: 13 October to 11 November 2026 at a glance page 3

Section 1 Trends over the period page 4

Section 2 What the internet was used for page 5

Section 3 Most used services and websites page 6

Section 4 When people were online page 7

Section 5 Branches and networks page 8

Section 6 AI tools page 9

Section 7 Safety and protection page 10

Section 8 Most blocked websites page 11

Section 9 CIPA compliance record page 13

Section 10 Behind the scenes page 14

Section 11 Recommendations page 15

How to read the figures

Website visit	Lookups for the same website on the same network count as one visit until 30 minutes pass without one.
Lookup	A device asking where a website is. Opening one web page usually makes many lookups (its images, scripts, fonts and ads come from many addresses), so lookups are much higher than the number of visits or of people.
People-facing use	Lookups for websites and services people use. Device updates, advertising networks and IT systems are counted separately (Behind the scenes).
Blocked	A lookup the filter stopped because of your policy. The website does not open for the person who tried.

13 OCTOBER TO 11 NOVEMBER 2026 AT A GLANCE

About 660 website visits a day, mostly Google Search and services, YouTube, Wikipedia and Gmail

This is the first report, so there is no comparison yet. People-facing figures leave out device updates, advertising and IT systems.

19,150
Website visits

660
Visits per active day
29 active days

123
Websites and services used

42,174
Lookups by people

2,521
Blocked by your policy
plus 153 automatic encrypted DNS

100.00%
Filter availability
self-checks of the main server

Lookups are not visits: one web page makes many lookups (images, scripts, ads). See How to read the figures.

Headline findings

01 **Busiest day: Tuesday 13 October**
1,986 lookups that day; the busiest hour across the period was 14:00 to 15:00.

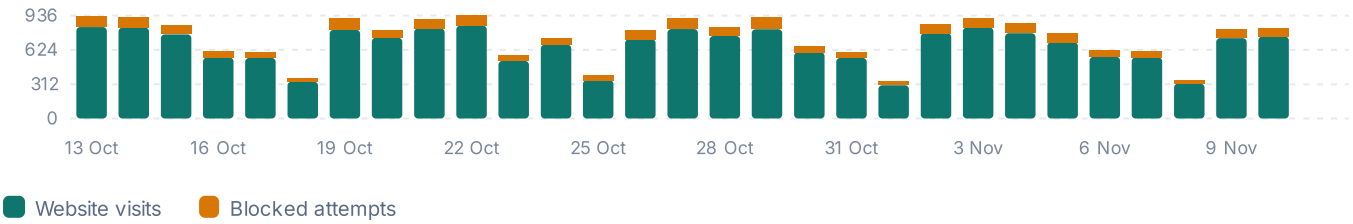

02 **Search, office and online tools was the biggest use, 24% of lookups**
Followed by video, music, sports and entertainment (14%), social media and communities (10%), learning and education (9%).

03 **Library services and e-resources: 1,862 lookups**
Most used: Libby / OverDrive, WorldCat, EBSCO.

04 **2,521 lookups blocked by your policy**
Including 631 adult content, 509 VPN or proxy websites. Not counted: 153 automatic encrypted DNS lookups by browsers, kept on the filter.

05 **51 AI tools reached**
Most used: ChatGPT (OpenAI), with 172 lookups.

Website visits per day

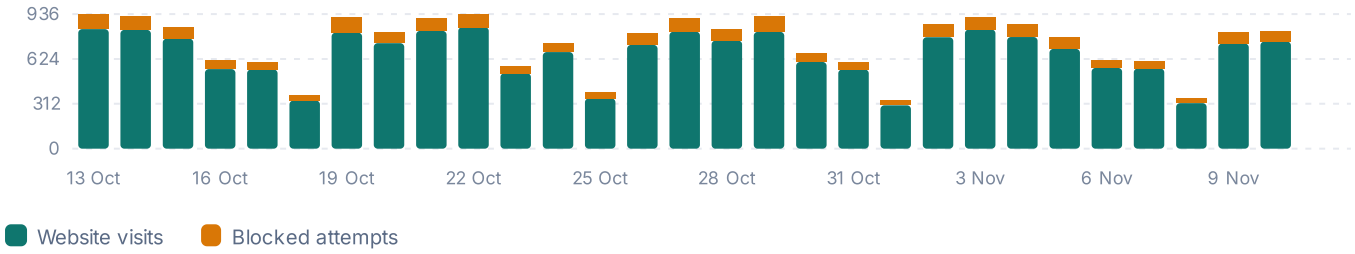

SECTION 1

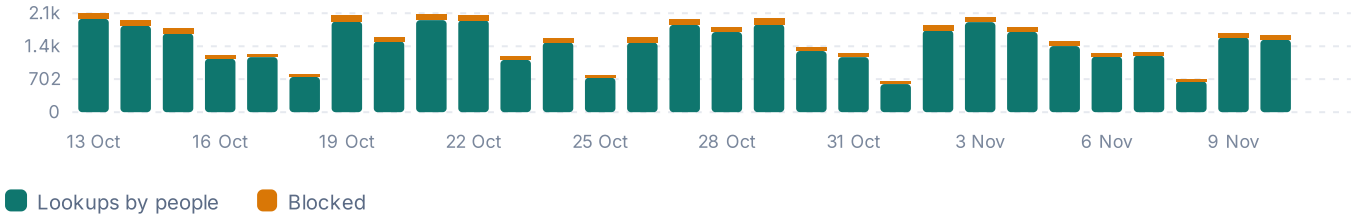

Trends over the period

How use changed from day to day: website visits, lookups, the number of different websites and the purposes people used the internet for.

Website visits per day

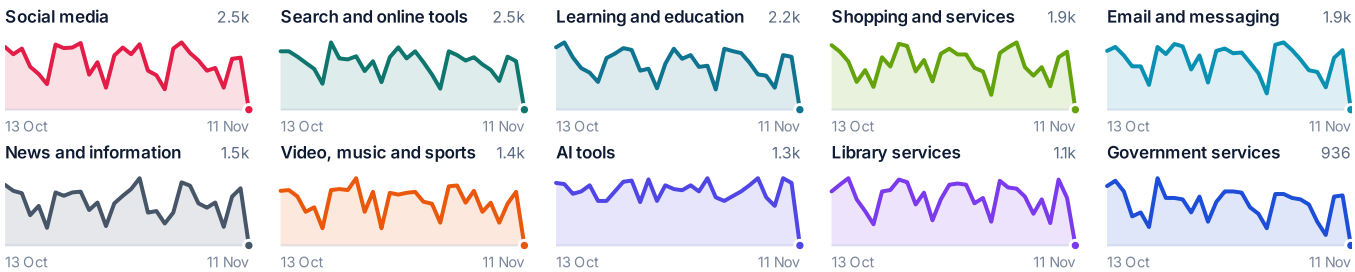

Lookups by people per day

Different websites and services visited per day

Top 10 purposes by website visits, day by day

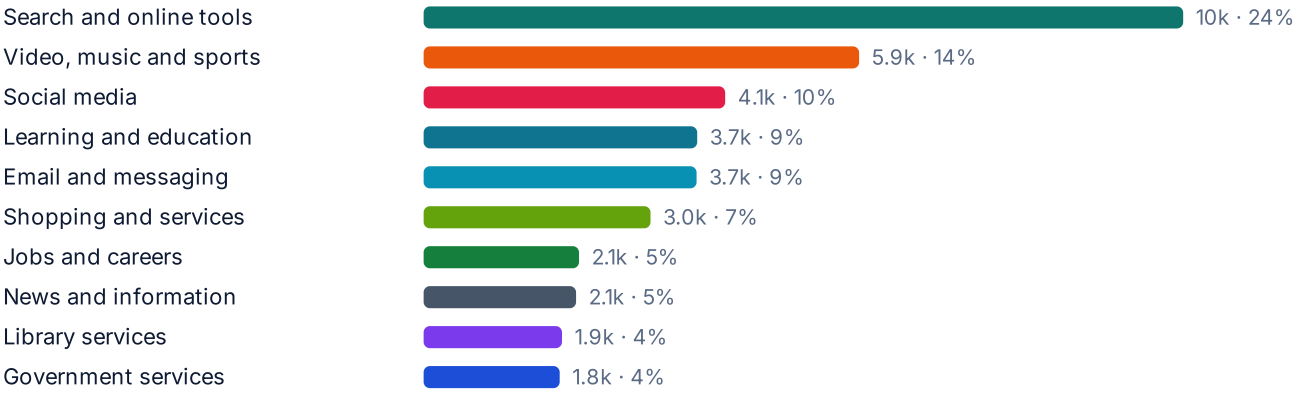

Each small chart has its own scale; the number in the corner is the total for the period. Website visits group lookups into visits (see How to read the figures).

SECTION 2

What the internet was used for

Every website and service is grouped by purpose, so the board can see the public value of the connection: learning, jobs, government services, health and more.

By purpose

PURPOSE	VISITS	LOOKUPS	SHARE	MOST USED
Search, office and online tools	2,499	10,215	24.2%	Google Search and services, Google Docs and Drive
Video, music, sports and entertainment	1,448	5,856	13.9%	YouTube, Spotify
Social media and communities	2,502	4,056	9.6%	Facebook, Instagram
Learning and education	2,162	3,680	8.7%	Wikipedia, Khan Academy
Email, calls and messaging	1,865	3,670	8.7%	Gmail, Outlook
Shopping, travel and everyday services	1,925	3,050	7.2%	Amazon, Walmart
Jobs and careers	543	2,091	5.0%	Indeed, USAJOBS
News and information	1,509	2,051	4.9%	The Weather Channel, MSN
Library e-books, databases and services	1,081	1,862	4.4%	Libby / OverDrive, WorldCat
Government and public services	936	1,830	4.3%	IRS, Social Security
AI tools	1,339	1,569	3.7%	claude.ai, Microsoft Copilot
Banking and finance	534	1,159	2.7%	PayPal, Chase

Library services and e-resources: 1,862 lookups. Includes your own website and catalog, e-books, databases, PC booking and printing.

SECTION 3

Most used services and websites

Known services are shown by name (for example YouTube or Google Classroom); other websites by their address. Adult website names are masked.

#	SERVICE OR WEBSITE	PURPOSE	VISITS	LOOKUPS	SHARE	DAYS
1	**Google Search and services**	Search, office and online tools	427	6,522	15.5%	29
2	**YouTube**	Video, music, sports and entertainment	380	4,532	10.7%	29
3	**Wikipedia**	Learning and education	560	1,574	3.7%	29
4	**Gmail**	Email, calls and messaging	544	1,337	3.2%	29
5	**Indeed**	Jobs and careers	134	1,318	3.1%	29
6	**Google Docs and Drive**	Search, office and online tools	549	1,315	3.1%	29
7	**Facebook**	Social media and communities	548	1,293	3.1%	29
8	**Outlook**	Email, calls and messaging	494	1,099	2.6%	29
9	**Amazon**	Shopping, travel and everyday services	531	1,027	2.4%	29
10	**Libby / OverDrive**	Library e-books, databases and services	476	873	2.1%	29
11	**Microsoft 365**	Search, office and online tools	487	833	2.0%	29
12	**Instagram**	Social media and communities	415	635	1.5%	29
13	**TikTok**	Social media and communities	421	621	1.5%	29
14	**Canva**	Search, office and online tools	390	580	1.4%	29
15	**Khan Academy**	Learning and education	391	548	1.3%	29
16	**Reddit**	Social media and communities	363	540	1.3%	29
17	**IRS**	Government and public services	211	536	1.3%	29
18	**The Weather Channel**	News and information	362	532	1.3%	29
19	**PayPal**	Banking and finance	195	526	1.2%	29
20	**USAJOBS**	Jobs and careers	192	511	1.2%	29

New and no longer used services are listed from the next period on, once there is an earlier period to compare with.

SECTION 4

When people were online

Use these patterns for staffing, opening hours and maintenance windows. Weekday figures are averages per day, so a weekday that occurs twice in the period does not count double. Darker squares mean more activity.

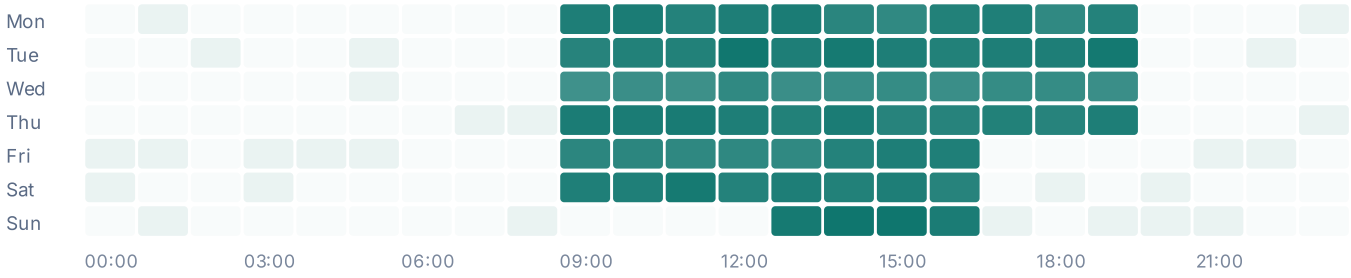

Tue 13 Oct
Busiest day
1,986 lookups

Sunday 15:00
Busiest hour of the week
on average, peak in the heat map

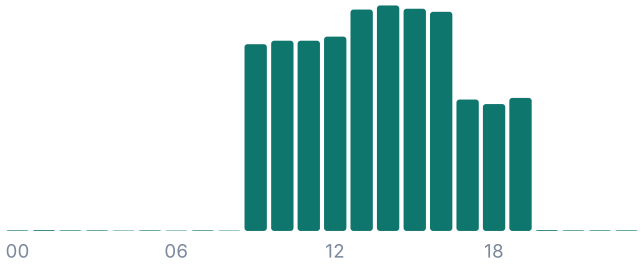

14:00 to 15:00
Busiest hour of the day
across all days

Tuesday
Busiest weekday
on average per day

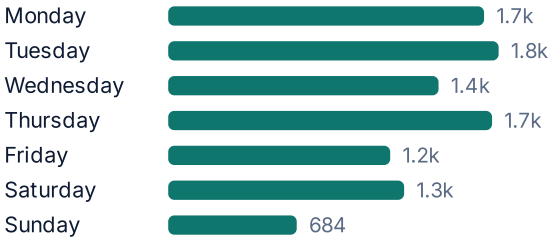

Day of the week and hour (average per day)

Hour of the day

Day of the week (average lookups per day)

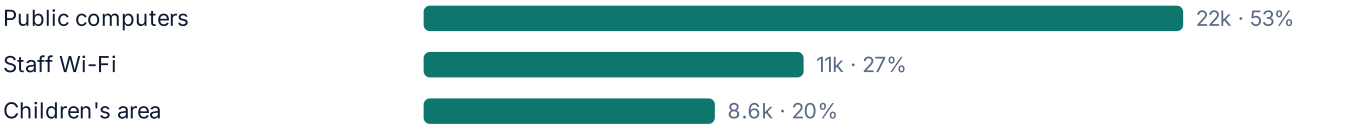

Activity at night: computers, phones and tablets that stay switched on keep checking email and apps and download updates on their own, without anyone using them. Device updates, ads and IT systems are counted separately under Behind the scenes.

Times in America/New_York.

SECTION 5

Branches and networks

Each branch or network separately. Unblocks are staff and patron unblocks on that network.

Figures per network

NETWORK	LOOKUPS BY PEOPLE	SHARE	BLOCKED	UNBLOCKS
Public computers	22,388	53.1%	1,538	5
Staff Wi-Fi	11,201	26.6%	54	1
Children's area	8,585	20.4%	1,082	0

SECTION 6

AI tools on your network

51 AI tools were reached in this period, matched against a register of more than 11,000 AI tools that is updated every day. A company's own website is counted with its AI tool (openai.com with ChatGPT).

AI TOOL	WEBSITE	LOOKUPS	BLOCKED	STATUS
ChatGPT (OpenAI)	chatgpt.com	172	524	Partly blocked
Claude (Anthropic)	claude.ai	250	0	Allowed
Microsoft Copilot	copilot.microsoft.com	233	0	Allowed
Grammarly	grammarly.com	163	0	Allowed
Perplexity	perplexity.ai	146	13	Partly blocked
DeepL	deepl.com	110	0	Allowed
Character.AI	character.ai	0	78	Blocked
QuillBot	quillbot.com	66	0	Allowed
Khanmigo	khanmigo.ai	57	0	Allowed
Otter.ai	otter.ai	46	0	Allowed
Gamma	gamma.app	44	0	Allowed
Grok	grok.com	39	0	Allowed
Meta AI	meta.ai	26	6	Partly blocked
Suno	suno.com	19	12	Partly blocked
Remove.bg	remove.bg	25	5	Partly blocked
Midjourney	midjourney.com	20	9	Partly blocked
MagicSchool	magicschool.ai	27	0	Allowed
DeepSeek	deepseek.com	0	24	Blocked
Talkie	talkie-ai.com	0	22	Blocked
Gauth	gauthmath.com	0	19	Blocked
Photomath	photomath.com	0	19	Blocked
Gemini Notebook (formerly NotebookLM)	notebooklm.google	14	0	Allowed
Undetectable AI	undetectable.ai	0	13	Blocked
ZeroGPT	zerogpt.com	12	0	Allowed
ElevenLabs	elevenlabs.io	0	10	Blocked
Replit	replit.com	8	0	Allowed

SECTION 7

Safety and protection

What the filter stopped under your policy. The website did not open for the person who tried; nothing else is recorded about them.

631
Adult content blocked

509
VPN and proxy websites blocked

6
Staff unblocks, each logged

153
Encrypted DNS kept on the filter (automatic)

Blocked by category

CATEGORY	BLOCKED
AI / LLM Tools AI chatbots and tools	819
Adult Pornography and explicit content	631
VPN / Proxy / Anonymizers Tools that go around the filter	509
Gambling Betting and online casinos	247
Gaming Online games	169
Browser encrypted DNS (automatic) Browsers trying their own encrypted DNS; kept on the filter, every device stayed filtered	153
Custom block list	87
Dating Dating sites	59

Not listed: 153 automatic encrypted DNS lookups by browsers (cloudflare-dns.com, dns.google, opendns.com). Browsers such as Firefox, Chrome and Edge try their own encrypted DNS service every few minutes; the filter blocks it, the browser falls back to the filter, and every device stays filtered. Nobody was trying to get around the filter.

SECTION 8

Most blocked websites

The websites the filter blocked most often, up to five for each category, so you can see it working across your policy. Adult website names are masked; every blocked website is in the Excel export.

AI / LLM Tools · 819 blocked

WEBSITE	BLOCKED
chatgpt.com	524
character.ai	78
Google Search and services	35
deepseek.com	24
talkie-ai.com	22

Gambling · 247 blocked

WEBSITE	BLOCKED
draftkings.com	75
stake.us	60
fanduel.com	58
bet365.com	29
chumbacasino.com	25

Gaming · 169 blocked

WEBSITE	BLOCKED
Roblox	39
Coolmath Games	30
Poki	19
funbrain.com	17
CrazyGames	12

Custom block list · 87 blocked

WEBSITE	BLOCKED
ome.tv	59
chatroulette.com	28

Not listed: 153 automatic encrypted DNS lookups by browsers (cloudflare-dns.com, dns.google, opendns.com). Browsers such as Firefox, Chrome and Edge try their own encrypted DNS service every few minutes; the filter blocks it, the browser falls back to the filter, and every device stays filtered. Nobody was trying to get around the filter.

SECTION 9

CIPA compliance record

The Children's Internet Protection Act asks libraries and schools that receive E-Rate discounts for a technology protection measure and records. This page summarises yours for the period.

- **Visual depictions that are obscene, child pornography or harmful to minors are blocked**
  Adult category blocked in profile Public computers, Children's area, Staff
- **Tools that go around the filter are blocked**
  VPN, proxy and anonymizer websites, plus encrypted DNS services
- **Adults can have the filter disabled for bona fide research or other lawful purpose**
  6 staff unblocks and 0 patron self-unblocks recorded, 5 ending by themselves and 1 switched back on early by staff or the patron
- **The filter was in place throughout the period**
  Availability 100.00%
- **Records are kept**
  Activity log, unblock log and this report

Filtering policy on record

PROFILE AND NETWORKS	BLOCKED CATEGORIES	SAFESEARCH
Profile Public computers used by: Public computers	Adult, Gambling, VPN / Proxy / Anonymizers	Off
Profile Children's area used by: Children's area	Adult, Gambling, Dating, VPN / Proxy / Anonymizers	On
Profile Staff used by: Staff Wi-Fi	Adult, VPN / Proxy / Anonymizers	Off

Unblock log (latest 7)

TIME	NETWORK	EVENT	MINUTES
Mon 09 Nov 12:41	Public computers	Staff unblock started	30
Fri 06 Nov 15:52	Public computers	Staff unblock started	60
Tue 03 Nov 19:04	Staff Wi-Fi	Staff unblock started	15
Fri 30 Oct 15:30	Public computers	Filter fully back on (staff)	
Fri 30 Oct 15:20	Public computers	Staff unblock started	30
Fri 23 Oct 15:20	Public computers	Staff unblock started	15
Fri 16 Oct 16:18	Public computers	Staff unblock started	30

> Always allowed: 6 websites · Always blocked: 3 websites · Staff unblock: PIN for 15, 30 or 60 minutes, then on again by itself · Patron self-unblock: off

This record supports your own documentation. It is not legal advice and does not guarantee E-Rate eligibility.

SECTION 10

Behind the scenes

Computers, phones and IT systems also talk to the internet on their own: updates, advertising networks, security agents and cameras. This traffic is kept apart from the people-facing figures.

Lookups by people	42,174 · 75%
IT, security and building systems	0 · 0%
Device updates, ads and content networks	11,265 · 20%
Blocked	2,674 · 5%

Largest background sources

SERVICE	TYPE	LOOKUPS	SHARE OF ALL
googleapis.com	Device updates, ads and content networks	2,035	3.6%
gstatic.com	Device updates, ads and content networks	1,898	3.4%
microsoft.com	Device updates, ads and content networks	1,719	3.1%
apple.com	Device updates, ads and content networks	1,598	2.8%
msftconnecttest.com	Device updates, ads and content networks	1,400	2.5%
windowsupdate.com	Device updates, ads and content networks	1,010	1.8%
digicert.com	Device updates, ads and content networks	958	1.7%
windows.com	Device updates, ads and content networks	647	1.2%

SECTION 11

Recommendations

What to decide next. Everything else is already on the pages before.

1. **Check SafeSearch**
   SafeSearch is off in at least one profile. With it on, Google, Bing and other search engines hide explicit images in results for everyone on that network.

About the figures

Figures come from the lookups your filter handled for Demo Library (sample data), grouped by day in America/New_York. Websites are grouped by purpose from a database of 20 million categorized websites and a register of named services and AI tools. Short gaps are possible while a device uses a cached answer. Report generated 11 November 2026, 18:11.

Disclaimer: this report is provided for information only. Figures depend on the lookups the filter handled and may be incomplete. It is not legal advice and does not guarantee CIPA compliance, E-Rate eligibility or funding. To the fullest extent permitted by law, Alpha Quantum d.o.o. accepts no liability for any loss or damage arising from the use of this report.
